# Welcome to Word

6 tips for a simpler way to work

#### Quick access to commands

At the top of your document, the **Quick Access Toolbar** puts the commands you use frequently just one click away.

If the commands currently shown aren't quite what you need, customize the **Quick Access Toolbar**.

Try it:

Select the **Customize Quick Access Toolbar** button and select command names to add or remove them from the **Quick Access Toolbar**.

In this document, styles like **Heading 1** and **Title** have been applied to text (**Home** tab, **Styles** gallery). That lets you quickly overhaul the look of the whole document.

Try it:

1. On the **Design** tab, select the different **Style Sets** and watch the formatting change automatically.

2. Go to Themes and watch how colors and fonts change with the various choices.

3. The **Design** tab also provides choices for fine-tuning colors, fonts, or paragraph spacing. You can also add a watermark or page border, or change the color of the page.

## Edit pictures without leaving Word

When it comes to pictures, Word includes options for adjusting color, cropping, removing the background, applying artistic effects, and more.

Try it:

1. Select this photograph of an otter:

- 2. Select **Picture Format** tab, and then select **Artistic Effects** and select an effect, like **Mosaic Bubbles**.
- 3. To see all the formatting options, select **Picture Format** tab, and then select **Format Pane** on the right side of the app.

pilings Review View Picture Format	Q- Search n I
Children Wran Bring Sand Allen Ch. Con	Height: 1.3"
Styles Text Foundrd Backward	Format Picture
	▶ Shadow
	▶ Reflection
	▶ Glow
	▶ Soft Edges
	▶ 3-D Format
	▶ 3-D Rotation
	▶ Artistic Effects

4. If you apply formatting you don't like, press F1 to undo it, or select **Reset** under **Artistic Effects** in the **Format Pane** to go back to the original picture.

Hint: To open the Format Pane quickly, press Command+Shift+1.

#### Explore without leaving your doc

Smart Lookup brings research from the web directly into Word.

Try it:

1. Select the word "Otter"

2. Go to the References tab and select Smart Lookup

Source: Wikipedia CC-by-SA – https://en.wikipedia.org

3. To close out of the **Smart Lookup** pane, select the **Close** button at the top of the pane.

#### **Designed for teamwork**

With your document stored online, your group can work on it together at the same time.

How it works:

- 1. Save your document in an online location, like OneDrive.
- 2. Select **Share** button from above the ribbon.

3. Invite people or send a link so they can edit with you.

#### Give feedback in comments

Comments are threaded, so you can have a conversation right next to relevant text. This is a great way to quickly add your feedback.

Try it:

- 1. Select somewhere in this paragraph, and then select the **Review** tab.
- 2. Select New Comment, and type something.

J 🔒	Document	Q - Search in Document				
Layout References Mailings	Review View		🖺 Share 🗠			
Check Accessibility	elete Resolve	Reviewing Accept Reject Compare Document	Restrict Permission			
The <mark>Hippopotamus</mark> The common hippopotamus is a large, mostly herbivorou one of only two extant speci other being the pygmy hippo	(Hippopotamus amphibius), or hippo, is mammal in sub-Saharan Africa, and ies in the family Hippopotamidae, the opotamus.	Kat Larson Are we covering common hippo or Pygmy hippo in this paper?				

3. Notice that your comment includes a **Reply** button. Use it to respond to a comment.

**Hint:** When you've taken care of feedback, get the comment out of your way without losing it: Select the comment and then select **Done** on the **Review** tab.
